PREFACE

In accordance with the custom which has been initiated, of publishing a catalogue of the members of Gamma Delta Psi once every five years, Volume II is herewith respectfully offered for your consideration. Before you pass judgment upon it, weigh carefully in your mind the task which it has been to compile this information, lacking as it has the enthusiasm and novelty which Volume I had. There are, no doubt, a great many errors and omissions, but eight months having elapsed since the work was begun, it was thought best to have the book put to print with these imperfections, rather than to wait longer and thereby allow what was already on hand to become obsolete and of no value.

To those who will inevitably register protests against Volume II, as being erroneous in particular instances, we beg to say that the fault in the main lies with those who, when requested one, two, yes three times and more, to send in blanks with the correct data concerning themselves upon them, refused to pay any attention to these requests. On the other hand, we beg to acknowledge and extend thanks for the energetic and enthusiastic support which was received from other quarters; a support without which the publication of this book would have been an impossibility. It is obvious that to get out a perfect book, everyone in the Fraternity must cooperate with the Board. Excepting for the size and color, and the printing of the names in double row on a page, Volume II is substantially like its predecessor as to form.

Taken as a whole, the work has been a pleasant one, bringing those engaged in it into closer bonds of friendship with members from all over the country. If your Committee has, in the embodiment of the work in its present concrete form, given to the Fraternity a reference book which will be of service to its members as a whole, we are satisfied, and count the hours spent in its preparation as time devoted to a worthy undertaking.

PREFACE.
